

Find the Java Control Panel

1. Click on the **Start** button and type “Java Control Panel” or “Configure Java” (depending on your version of Java) in the **Search programs and files** box.

2. Click on Configure Java open the Java Control Panel.

Allowing Java to run programs from hermanaguinis.com and www.hermanaguinis.com

Add a URL

- Click on the **Security** tab.
- Click on the **Edit Site List** button.
- Click the **Add** in the Exception Site List window.
- Click in the empty field under Location field to enter the URLs:
http://www.hermanaguinis.com
http://hermanaguinis.com
- Click **OK** to save the URL that you entered. If you click **Cancel**, the URLs are not saved.
- Click **Continue** on the Security Warning dialog.
